TECHNICAL SKILLS

JavaScript, React, Redux, Node.js, Express.js, Jest, enzyme, Git, HTML5, CSS3, LESS.js, WDIO, Cucumber, Bootstrap, Media Queries, JQuery, Materialize, Firebase, APIs, JSON, AJAX, MySQL, Sequelize.js, Handlebars.js, PHP, MongoDB

PROFESSIONAL WORK EXPERIENCE

Junior Front End Engineer, Best Buy   August 2018 - Present
Technologies: JavaScript, React, Redux, Node.js, LESS.js, Git
- Work within a team of ten to create new components and pages that enable customers to easily add accessories and additional items to their purchase, or purchase items as a bundle
- Develop code to meet business, design, accessibility, and analytics requirements
- Ensure all code attains 85% testing coverage by writing unit and functional tests using Jest and Cucumber frameworks
- Participate in regular agile ceremonies, including stand-ups, sprint planning, backlog refinement, and retrospectives
- Work within a team of three to overhaul existing on-boarding process and architect a new department-wide knowledge base

FREELANCE WORK EXPERIENCE

Parnassus Preparatory School Store   August 2019 - Present
Technologies: JavaScript, Node.js, Express.js, Nunjucks, MongoDB
- Develop an online application for 1000+ charter school scholars, staff, and families to order school spirit merchandise

Creo Kids Academy [www.creokidsacademy.com]   December 2018 - March 2019
Technologies: WordPress, CSS
- Used WordPress content management system, plugins and custom CSS to update website, specifically content and branding, for local business focused on teaching kids coding basics in the greater Twin Cities area

rabbitGrub [www.rabbitgrub.herokuapp.com]   May 2018 - July 2018
Technologies: JavaScript, Node.js, Express.js, Caleander.js, GoogleMaps API
- Created a custom website for a local startup that shows customers information about the mobile food-bike service including menu items, the bike's current location, upcoming events, and information about the concept and owner

UMN Coding Bootcamp Projects   November 2017 - May 2018
Technologies: JavaScript, Express.js, Node.js, Materialize, Eventful API, GoogleMaps API, Lyft API
- **Travel Buddy Finder** - Created a survey style application to help users connect with others for international travel
- **SORTIR!** - Worked as a project manager and developer to create an event finder application to find events of interest, show event locations and connect users to rides

ADDITIONAL EXPERIENCE

Activities and Co-Curricular Coordinator, Osseo Area Schools   November 2017 - August 2018
- Developed and executed district events that met stakeholder goals and standards while ensuring brand consistency

Administrative Assistant, Osseo Area Schools   October 2016- November 2017
- Acted as the main point of contact and delivered assistance to 400+ scholars, families, volunteers and staff

Banquet Captain, Green Mill Catering   July 2016 - April 2017
- Scheduled and coordinated 30+ staff members to effectively execute off-site event planning, service, and clean-up

Membership Manager, Phi Sigma Sigma   January 2013 - March 2015 and January 2016 - May 2016
- Managed 60+ chapters across North America while working remotely, with areas of focus including leadership development, recruitment, event planning/execution, chapter operations, community service, philanthropy and on-site support as needed
